## Technical Data Sheet

### General Description

**PRODUCT CODE:** S8SG34  
**PRODUCT NAME:** RAL 6032 SIGNAL GREEN  
**CHEMISTRY:** POLYESTER SUPER- DURABLE  
**SURFACE FINISH:** SMOOTH

### Application Recommendation

**Surface preparation:** All oil and grease, scale and rust, must be removed.

**Pretreatment Requirements:** A five stage pretreatment according to ASTM B449 is highly recommended. Anodizing according to AAMA 2603-02 and Chrome-free pretreatment according to AAMA 2604-05 are acceptable methods of optimum adhesion performance and excellent corrosion protection.

**Cure Schedule:** 10 min. at 400 Deg. F, or 15 min. at 375F metal temperature.

**Film thickness:** 3-5 mils.

**Features:** Superior gloss and color retention, excellent weather resistance, excellent mechanical properties, excellent edge coverage, good storage stability.

**Typical Applications:** All Architectural and construction application including Playground equipment, Agricultural equipment and Marine application.

This powder coating do not contain the 10 restricted substances, as defined in the European directive 2015/863/EU (RoHS 3 restriction of Hazardous Substances) 2), Article (4)2, Annex II, to this product, and have determined that any impurities disclosed to us by our suppliers are in amounts less than the maximum concentration values tolerated by weight in homogeneous materials for the restricted hazardous substances under the RoHS 3 CE marking directive and REAC Restricted Chemical list, Cadmium, Chromium VI, Lead, Mercury, Cadmium, Polybromobiphenyls, Polybrominatedbiphenyls(PBB) under the RoHS 3 compliance effect July, 2019. Do not contain Chemicals listed in California January 03, Proposition 65 list.

Shelf life is expected to be at least one year from date of shipment when stored in dry conditions at less than 80 Deg. F. (27 Deg. C.)
